2022 Municipal Annual Emergency Medical Services Summary Report

County of Bucks

Department of Emergency Health Services

911 Freedom Way | Ivyland, Pennsylvania 18974
(215)340-8735 | BCEHS@buckscounty.org

April 7, 2023

Larry Loose
Director

Dear EMS Stakeholder,

The Annual Municipal Emergency Medical Services(EMS) Summary Report provides each municipality with a brief overview of EMS response to the respective municipality. All of our data is dependent on a human interface which inherently errors can occur. Our office makes every effort to provide the most reliable information with the best data available.

Bucks County Emergency Medical Services (EMS) is made up of sixteen non-profit agencies. They operate out of thirty stations throughout the County. Three of the agencies are hospital-based units supported by their respective hospital.

In 2022 Bucks County EMS units respond to almost 65,000 calls and transported over 40,000 patients this is a small increase compared to 2021. In most areas of the county, EMS arrives on scene within 13-15 minutes or less ninety percent of the time.

EMS is the youngest member of the public safety community and the third busiest service if you include the emergency communication center (9-1-1). Regulations require a licensed EMS agency to be in service twenty-four hours a day. This regulation combined with the call volume and the expectation of a rapid response forces agencies to have crews in the station ready to respond.

Respectfully,
Larry Loose, NRParamedic
Regional EMS Director
Bucks County Emergency Health Services

County of Bucks

Department of Emergency Health Services

EMS Report Definitions:

Call Volume- Determined by the number of times an EMS unit arrived on-scene.

Response Time- The time elapsed from the EMS unit dispatched to the EMS unit arriving on-scene.

Fractal Response time 90th percentile- The EMS agency's response time to arrive on-scene within a given time with 90% assurance. Example: fractal response time 12mins. means EMS arrived on scene in 12 minutes or less 90% of the time.

Average Response Time- The average amount of time that elapses between EMS unit dispatch to the EMS Unit arriving on-scene.

Total Responses by Agency

1st Responding Agency	Point Pleasant Plumsteadville EMS (124)	225
-----------------------	---	-----

Agency Name	Station Number	Call Volume
-------------	----------------	-------------

Emergency Medical Service Definitions:

EMS Certification Levels

Emergency Medical Technician (EMT)- Provide basic prehospital medical care and transportation.

Advanced Emergency Medical Technician (AEMT)- Provide basic and limited advanced emergency medical care to patients in the prehospital setting.

Paramedic (PM)- provide advanced emergency medical care for critical and emergent patients who access the emergency medical system.

Prehospital R.N.(PHRN)- Register Nurses trained to provide advanced emergency medical care for critical and emergent patients similar to paramedics.

EMS Care levels:

Advanced Life Support unit (ALS)- Paramedic (PM)

Staffing: Paramedic or Prehospital RN(PHRN) and Emergency Medical Technician

Intermediate Advanced Life Support unit (IALS)- Advanced Emergency Medical Technician

Staffing: AEMT and EMT

Basic Life Support Unit (BLS)- Emergency Medical Technician

Staffing: EMT and Emergency Medical Service Vehicle Operator (EMSVO)

EMS Delivery of Service:

Transporting unit- A unit capable to transport a patient.

Responder/Chase vehicle/Squad unit- Does not have transport capabilities. Provider brings equipment to the scene and provides care. This unit depends on a transporting unit to take the patient to the hospital.
